**BOOKING HOUSE CONCERTS
2021**

What is a house concert?

A house concert is a private event in someone's home where an artist comes to perform in an intimate, listening environment. The performance will generally be stripped down to accommodate the space. This unadulterated environment allows the artists to showcase a side of the material that can't be captured in a traditional club or venue environment.

Why do we do them?

Quite frankly, because we love them. They're a great way to connect with music listeners in a way that a bar or music venue doesn't lend itself to.

How to set one up.

Just email us at nickdittmeier@gmail.com to inquire about dates and set up. Whether you are a house show veteran host or trying your hand at the first time, we'll help get all of the details hammered out.
